RESAAS Surpasses 300,000 Verified Real Estate Professionals

VANCOUVER, B.C. (December 8, 2014) – RESAAS Services Inc. (CSE: RSS), The Real Estate Social Network™, announced today the company has reached 300,000 verified real estate professional users on its Platform.

This rate of growth secures RESAAS as the largest and fastest growing professional real estate network, reaching the 300,000 user mark just 18 months after its commercial launch. A verified professional on RESAAS is a licensed real estate agent, REALTOR®, Broker Owner, or a professional working for a real estate franchise or association.

"In less than two years, we've seen a significant number of licensed real estate agents in North America start using RESAAS to take control of their marketing and lead generation, as well as to conduct their referral business," said Tom Rossiter, President of RESAAS. "This milestone shows the appetite for a vertical-specific platform, exclusive to real estate professionals. Agent-to-agent collaboration is long overdue for a digital revolution of the industry, and RESAAS is helping its members take the lead in this transformation."

RESAAS has proven to be a valuable workflow tool for real estate professionals. Whether it's to market their listings, make connections with agents to conduct referrals, keep up with the latest real estate industry news, or answer prospective clients' questions to generate real-time leads, RESAAS users are finding new ways to generate business as a licensed real estate agent.

In recent months, RESAAS has been officially adopted by a wide variety of real estate organizations, from hundreds of independent brokerages and large multinational franchises, through to real estate associations and top industry news outlets.

RE/MAX, the largest real estate franchise worldwide, offers a white-labeled version of RESAAS to all of its agents globally, taking advantage of RESAAS' multilingual and multicurrency network. The Platform is currently offered in 13 languages, including all major European languages, Chinese, and Korean. A total of 26 languages will be available in the first quarter of 2015.
